Light Play

The result of a unique collaboration between esteemed architectural firm Robert A.M. Stern, CF Stinson and Bentley, a design leader for commercial carpet, Light Play presents a synergistic suite of five performance fabrics and two carpet styles inspired by the play of light and shadow on architectural elements. This thoughtful and sophisticated collection allows designers to specify beautifully integrated patterns for fabric and carpet with a shared design sensibility. **CIRCLE 19**

**DESIGN FOR WELLNESS: WINNER**  
Sarana

Working in collaboration with acclaimed designer Clodagh, CF Stinson has created Sarana, a collection of healing textiles based on time-honored principles and elements of wellness. Design is a healing art that supports and enhances the mind, body and spirit. By combining textures and color inspired by the natural environment, Sarana creates a sense of warmth, comfort, grounding and shelter for patients and visitors alike.
